### Week 3 Feedback Form

Course Code: Math38181/Math48181/Math68181.....

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional):.....

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

Very Good. Best in the maths department.

(Except can you give a little extra time to write everything on the board.)

#### Support Classes (supervisions, tutorials, computer classes)

Very Good. Best in the maths department

#### Course materials (notes, example sheets, solutions, textbooks)

Can you put solutions to past papers online.

Can you put more detail in the problem sheet solutions.

(i.e. lecturer goes into more detail when explaining solutions in tutorial; can you do the same for online solutions)

~~Can you~~ ~~post~~

Can you post a sample mid-term paper (with solutions) on blackboard.

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional): ... Zhao Zhiyun.....

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

I think this course is quite hard for students especially us new comers to understand, so the pace is just ok. And I think we need more time to practice examples and questions.

#### Support Classes (supervisions, tutorials, computer classes)

Tutorials are very important for us to understand what we know learn.

#### Course materials (notes, example sheets, solutions, textbooks)

perfect if the question in exam is similar.

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/Math48181/Math68181.....

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional): ..... HONG XUN WEI .....

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

Content is ~~enough~~ appropriate and sufficient.

delivery is clear and easy-understanding.

pace is easy to follow.

#### Support Classes (supervisions, tutorials, computer classes)

Tutorials are great, even not in work hours.

We don't have ~~any~~ any computer classes until now.

#### Course materials (notes, example sheets, solutions, textbooks)

all the course materials are uploaded in time.

and it is very clear and specific.

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/Math48181/Math68181..... *Math 68181*  
Extreme Values and Financial Risk  
Lecturer: ... Saralees Nadarajah.....  
Your name (optional): ..... *LIANGHAO CAI* .....

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

*Contents of Lectures are clearly and easy to follow.  
But some formulas are hard to remember. I don't know which  
one we need to remember when I review at weekends.*

#### Support Classes (supervisions, tutorials, computer classes)

*We have solved most questions on problem sheet. I hope we will  
have more example sheet to ~~some~~ practice.*

#### Course materials (notes, example sheets, solutions, textbooks)

*excellent materials.*

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/Math48181/Math68181... MATH 68181

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional):.....

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

The content of this course is organized,  
well defined and explained clearly.

#### Support Classes (supervisions, tutorials, computer classes)

Tutorials are not quite good. Because they are  
used to solve example sheets rather answer students' questions

#### Course materials (notes, example sheets, solutions, textbooks)

Notes are not quite clear and are written too quickly.

The solutions of example sheet can not be uploaded on time.

**School of Mathematics**

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional):.....

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

Pace could be faster

Support Classes (supervisions, tutorials, computer classes)

We can have more questions.

Course materials (notes, example sheets, solutions, textbooks)

Solutions better be put on blackboard after tutorials instead of in advance.

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/~~Math38181/~~.....

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional):.....

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

You write very fast. You labour easy points too much and harder parts not enough.  
Should be able to write in class.

Support Classes (supervisions, tutorials, computer classes)

Could we go through past exam paper q's?

Course materials (notes, example sheets, solutions, textbooks)

Why are we doing the sheets in a funny order? It's confusing!  
Solutions skip too many steps, too many questions

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/~~Math48181~~/~~Math68181~~.....

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional):.....

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

Lectures are fine, feel sometimes there aren't enough steps so it more could be included when carrying out complex calculus that would be great.

Support Classes (supervisions, tutorials, computer classes)

Tutorials are fine

Course materials (notes, example sheets, solutions, textbooks)

Notes are to a sufficient standard.

## School of Mathematics

Lectures (content, delivery, pace)

*in a really nice logic steps.*

*Enjoy the lecturer with*

*the strong nice explanation*

Support Classes (supervisions, tutorials, computer classes)

*Super Useful,*

*worthy to attend*

*Nice tutorial.*

Course materials (notes, example sheets, solutions, textbooks)

## School of Mathematics

### Week 3 Feedback Form

Course Code: Math38181/Math48181/Math68181.....

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional): ..... Undergraduate .....

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

Good, but could have related  
the use of method to the Finance  
Application.

Support Classes (supervisions, tutorials, computer classes)

Good.

Course materials (notes, example sheets, solutions, textbooks)

Lecture notes from the print out are not actually  
similar to your handwritten notes. Although I know  
the stuff you wrote are the explanation of  
some formulae.

Some of the content of the print out notes <sup>was</sup> ignored  
by you in the lecture, are they for PhD, Master  
students? So we can ignore it!

Lectures (content, delivery, pace)

Good

Support Classes (supervisions, tutorials, computer classes)

Tutorials would be even better if answer to a tricky question was put on board before gone through on whiteboard → just to check answers before going through it.

Course materials (notes, example sheets, solutions, textbooks)

Solutions aren't very detailed, I find myself confused between one step and the next, not knowing how one line leads to the next.

More steps in solutions would be useful, as I can't understand the steps.

#### Lectures (content, delivery, pace)

- Good amount of ~~text~~ content covered in all lectures
- low and usually very clear, handwritten notes put online which helps a lot.
- lecture room tends to be quite small and : noisy, not always clear what is being said.

#### Support Classes (supervisions, tutorials, computer classes)

Tutorials helpful - difficult questions done together.  
Solutions online help significantly

#### Course materials (notes, example sheets, solutions, textbooks)

Lecture notes not very helpful but handwritten notes very helpful.

Extreme Values and Financial Risk

Lecturer: ... Saralees Nadarajah.....

Your name (optional): ..... Yufei Song .....

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

Good, useful if you go and listen carefully.

Support Classes (supervisions, tutorials, computer classes)

tutorials are really need to go,

Course materials (notes, example sheets, solutions, textbooks)

I ~~was~~ usually print the lecture notes before lectures, and I think the notes help me understand better of the course constant and do the revisions.

#### Lectures (content, delivery, pace)

The content is what I was expecting

The professor always prepare the class the best way possible using examples and graphics.

He always ask if someone had doubts and also add information if it's needed

#### Support Classes (supervisions, tutorials, computer classes)

The tutorials are very helpful

#### Course materials (notes, example sheets, solutions, textbooks)

The professor always upload the notes to the blackboard space by the end of the ~~same~~ day

Please comment on the following for this course unit.

Lectures (content, delivery, pace)

Really good lectures, could do with including more of the difficult questions as well as the simpler ones.

Support Classes (supervisions, tutorials, computer classes)

Tutorials are good, would be better if more of the difficult questions were worked through on the board/visualiser.

Course materials (notes, example sheets, solutions, textbooks)

Notes & solutions to example sheets are very detailed and well set out.

#### Lectures (content, delivery, pace)

Lectures present clearly and list of all important points.  
And lecture notes are very useful for working tutorial sheets.

#### Support Classes (supervisions, tutorials, computer classes)

Tutorial sheets are all on website and convenient to check for students.

#### Course materials (notes, example sheets, solutions, textbooks)

Chapter textbooks are little too much.

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

Very good.

Always has clear explanations for the theorems.

And do examples in class step by step.

#### Support Classes (supervisions, tutorials, computer classes)

perfect

Solve exercises as many as possible for the students.

Explain homework deeply and always tells students

some useful techniques in details.

#### Course materials (notes, example sheets, solutions, textbooks)

Very useful

The structure of course website is compact and easy understanding

Always uploads handwriting notes on time.

Good solutions for the example sheets

Please comment on the following for this course unit.

#### Lectures (content, delivery, pace)

Lecture content is good and quite well explained (not always clear).

Like the use of OHP.

#### Support Classes (supervisions, tutorials, computer classes)

I like when examples are gone through on the board

#### Course materials (notes, example sheets, solutions, textbooks)

I like that the handwritten notes get uploaded.  
plenty of resources.
