Lectures (content, delivery, pace)

Lecture Content very thorough and well explained.
The Lecture Pace is ideal, Not too fast but not slow and therefore boring. Lecture Content is delivered well.

The Recap of previous Lecture at beginning of Lecture is helpful and not always done by other Lecturers.

Support Classes (supervisions, tutorials, computer classes)

Saralees is very helpful in Revision / Example Classes and always encourages Questions.
The Lecturer always emails back almost immediately about any questions.

Course materials (notes, example sheets, solutions, textbooks)

Course Materials are fantastic. All notes, example sheets and solutions are made available well in advance.

Past Papers available are brilliant!

"Tips" for Exam preparations are very useful too!

Overall an enjoyable course with fantastic staff.

Lectures (content, delivery, pace)

Pace is suitable . The delivery of lectures are good.

Support Classes (supervisions, tutorials, computer classes)

Tutorials can be divided into more classes. There are too many people in one class. Sometimes supervisors don't have much time to see individuals.

Course materials (notes, example sheets, solutions, textbooks)

The notes online is difficult to understand. But the notes you give in classes are good to understand.
